Employed in washing ship and stowing down water. Sent starboard boat ashore.

Thursday the 30th First part of these 24 hours, fresh breeze from the westward. Employed in stowing down water. Sent ashore, 18 empty bbls, ½ coil, 3 manilla hawsers, 1 bill of lumber, and 1 coil of cordage. 2½ inch. Middle part, wind continued the same. Latter part, gale from the westward, till 11 A.M., when the wind died away and came violently out to the eastward, with many squalls, and thunder and lightning. Employed in washing ship inside.

Friday the 31st

First part of these 24 hours, strong breeze from the westward and squally. Sent out chain to [illegible] buoy, on each chain. Finished washing and [illegible] ship inside. Middle part, these hours from the eastward, with many squalls. Latter part strong breeze from the westward, and very squally. got off a small raft of water and lost one cask out of the raft [illegible] First part of these 24 hours strong breeze from the westward. Employed in stowing water [illegible] Middle and latter part, gale from N.W. and squally. At 4 A.M., small canoe boat, about forty miles to leeward, the [illegible] 30 fathom chain; bent on to chain, bent on to the Kedge anchor, and dropped it, ship dragging a little, all the time.

While laying in Bunbury
Sunday June the 2nd 1867

First part of these 24 hours, strong breeze from NW & NNW ship dragging in shore a little, all the time at 4 P.M. close to the beach, if wind continues this way shall be ashore before morning. Middle part, wind shifted to the westward, and moderate sea. Latter part, fresh breeze from the westward and squally; dragged the anchor about a cable's length. Sent down topgallant masts, and got ready to ride by the starboard cable, and get under weigh, should the wind haul so that we could.

Monday the 3rd First part of these 24 hours, fresh breeze from the southward and squally. Employed in bending another starboard cable, to the westward; and hauling in. Middle part, wind shifted to the westward; had two very heavy squalls, with thunder and lightning, and heavy rain. Latter part, light breeze from the westward and fine weather. Got under weigh, at daylight, and found both flukes of big anchor gone. Light wind & calms with two boats. Sent up main topgallant yard, and sail.

Tuesday the 4th

First part of these 24 hours, light airs from the southward, and fine weather. Received on board, two hundredweights of potatoes, and 1 of onions. Sent a man from to shore. Cable came off at dark. At 8 P.M. the ship about 2 miles to the eastward of the anchorage. Middle part, wind continued light, and shifted to the eastward; weather fine. Latter part, wind shifted to the southward, and increased to a fresh breeze at daylight, passed Australind, about 20 miles to leeward of Bunbury.

Wednesday the 5th First part of these 24 hours, strong breeze from the southward, and squally. Sat up to Bunbury, again, at 9 A.M. and dropped the hook, close to where some trees grow above the water, got our anchor home, but the Rocks would not hold us, and we had to get under weigh again. Middle part, strong breeze from SW by W. Laying off and on. Latter part, strong breeze from WSW, and squally. Cable Bahooked went in with three boats, to see if he could get hold of the end of the chain, on the anchor we lost on the 1st on the shore, to the light of the

Remarks on board of bark Selina Gibbs of New Bedford

Thursday June the 6th 67

First part of these 24 hours, strong breezes
heavy sea on, and very rough. Capt Babcock succeeded,
with great difficulty, in making a cutting fall fast to the end
of the chain; he then came on board, took the ship in,
dropped the hedge, got the cutting fall around the windlass,
hove the end of the chain in, and shackled the end of
the big chain, on to the end of the one we have in, ~~as~~ we then
stuck out fifteen fathoms of the large chain, and passed
the nails. Middle and latter parts, gale from NW by
and ~~heavy~~ heavy squalls; gone here, nearly all big chain.

Friday the 7th

First part of these 24 hours, gale shifted gradually
to N & E, and moderate a little; weather squally.
Middle part wind died away gradually to a light breeze
and shifted more to the southward. Latter part calm and
fine weather. Got off two casks of water and three bags of
potatoes. Henry Warren and Alonzo Moses deserted while ashore on duty

Saturday the 8th First part of these 24 hours, light airs from the
southward, and fine weather. got off another cask of ~~water~~
water, making in all 240 Gls. Middle part & two
latter part light breezes from the eastward, and fine weather. Got all
ready to get under weigh, and the crew, with the exception of one
boat steerer (John Faber) request to leave the anchorage ship, and to have
one days liberty, each watch. Capt Babcock told them, they were doing
wrong, and exerted them to go to duty again; he told them how dangerous
it was, to ~~have~~ keep the ship laying in Bombay, at this season of the year;
he also reminded them of what a narrow escape we had already had, and
of going ashore, and that he was in no way justified, in keeping the ship
here, to give them liberty; he concluded by saying, he would give them plenty of
time to consider it, and hoped they would conclude to go to duty; but they still
refused. He then went ashore, & brought off the American Consul, who told the men that
it would be madness in Capt Babcock, to stay here, and give them liberty, after
having one of our anchors, breaking the other, and the ship coming so near to going
ashore; he exhorted them by all means, to go to duty; said the Capt would never go
into port again, and give them liberty pointed out to them the consequences of such
conduct, &c. Then there was no hope left Capt Babcock, to save them liberty in
[illegible] Alexander Pollock, refused to

Whilst laying in Bunbury

the Magistrate, by saying, he had been in power where the chief Magistrate, or owner could not be brought from his duty, with a keg of butter. The magistrate shortly after took his leave of the cabt, and went ashore.

Shipped a man, before the Mast, by the name of James Young.

Sunday June the 9th/81 First part of these 24 hours, light airs from all directions, and fine weather. Capt Babcock, after having given the crew about two hours, to consider whether they would go to duty, or not; and finding that they still persisted in refusing, went ashore, and came off again about half past three P M, with a letter from the Magistrate; which he read in presence of the whole crew. Capt Babcock then told them, that he would yield (under protest) to the force they had put upon him, got his ship under weigh, go to the port of Freemantle, and give them their liberty, if they would hoave the anchor up; but they still persisted, in their refusal, saying, they wanted their liberty in Bunbury. Capt Babcock told them, that the weather was becoming very serious, and they were laying themselves liable to a charge of open Mutiny, by such conduct; and urged them to reflect well, on what they were doing; he also said, that an express should be sent to Freemantle, and he should put the ship in the hands of the English authorities. Before doing which, however, he gave them till morning to consider, what they would do. Wind all hard, calm, and fine weather. Latter part, light airs from the southward, and fine weather.

Capt Babcock called the crew along in the waist, after breakfast, and asked each one, seperately, whether they had concluded to heave up the anchor, and go to Freemantle, and get their liberty, or not; they all, with the exception of [illegible] (the cooper) and Jabez Parker, said they would not heave up the anchor, until they got liberty. Capt Babcock then went ashore, and took Act Pollock with him, to see the Dept; he came off in about an hour, leaving Act Pollock ashore, and went ashore again, taking [illegible] with him; said meeting together with Pollock, and a short time [illegible] Jabez Parker, [illegible] were mostly all the talking, with the [illegible] and Mastermans language. Capt came off [illegible] at 11 A M, and the boat was hoisted up

Remarks on board of Bark Adeline Gibbs of these Bedford

Monday June the 10th 62

First part of these 24 hours, calm and fine weather. Crew still off duty. Middle and latter hours, light breeze from the southward and fine weather. Called all hands at day light, and they all went to duty. Put one of them (Francis Gosselin) in irons. Hove up the bridge, and then hove away on the other chain; but found that it had fouled, having no sufficient way on the anchor again, but the bridge, which was dropped again immediately, and lowered the boat, with lines and grapnels, to drag for the loose chain, which was attached to the anchor. They got hold of it in about an hour, and we soon got chain to the windlass, and hove the anchor up. Made all sail and in wearing round, the ship being very handy to the helm she struck lightly, several times, and finally struck fast. Cleared up all the sails, got the bridge mast, with two cutting falls, attached to it, hove her off, and made sail again.

Tuesday the 11th

First part of these 24 hours, moderate breeze from the southward and fine weather. Capt Babcock went on board at one P M, and came off again at half past three, bringing Alex Pollock, and [illegible] Newton, with him. He ordered Pollock and Newton to stay off, till the foretopsail was braced forward, and sail made, which Pollock refused to do; using very mutinous, and abusive language. The Captain then ordered him put in irons, which he resisted; but he finally succeeded, with a little difficulty, in putting them on. Capt Babcock took his irons off again, in about two hours, on receiving a promise from him, that he would go to his duty, and behave himself properly and in consideration of his good behaviour, thereafter. He also took the irons off Francis Gosselin, and sent him to duty. Hove the anchors and chains and washed off deck. Light breezes and fine weather, heading [illegible] Middle part moderate breeze from [illegible] and fine weather, heading [illegible] Latter part, fresh breeze from [illegible] and cloudy, heading [illegible]. Middle part, laying to under short sail.

Latter part light breezes from the southward and squally and showery

Lat 41.24 N
Lon 112.41 W

Saturday the 11th First part of these 24 hours, fair from the northward. Chased the whale till 5 P.M., when we got fast and struck; the whale stove her very badly, and the line getting foul, took her down; she was gone about twenty minutes and when she came up, she was pretty badly torn to pieces; the line had parted, and we saw nothing more of the whale. Picked up the things, and took what remained of waist boat in tow, and came on board. Took the old boat, hove over head, and put her on waist cranes, and hoisted the waist boat over head. Middle part calm. Latter part light breeze from southward and westward steering to the northward. Saw several finbacks

Whales

Sunday the 12th First part of these 24 hours, moderate breezes from the eastward and squally; heading to the northward. Middle and latter part calm.

So ends this voyage

# Remarks on board of bark Adeline Gibbs

1870

Oct 24 Found only one boat hatch, and two Tierces boxes to rig the boats with the rest having been lost with the boats when the ship was dismasted

Oct 25 Found a cask of Molasses 160 gallons all leaked out, with the exception of two, or three gallons in consequence of their having but a cork in it, when she sailed the first time, which got broke off, and let the molasses out

Oct 26 Found (per Sale * 1175 Stark & Brown Drills) 4 pieces taken from it to make boat sails off when she sailed the first time; one of the sails were lost, when the ship was dismasted

1871

Jan 6 Took 3 pieces Stark & Brown Drill, to make boat sails, and a sail for starboard [illegible]

" 9 Found box Pain Killer, marked 2 gross, with 22 bottles missing

April 25 Took piece of Duck to Mr Mullen to make Jeff to sail for the boats

May 1 Took piece of Canvas to piece out the boat sails

Sept 22 2 pieces to Sell to the crew (of Blue drill)

Gauges of the oil sent Home, and Stowed down, on board of bark Adeline Gibbs.
